WHO SHOULD ATTEND?

- Labor & Delivery Nurses
- LDRP Nurses
- Nurses New to OB
- Nurses Needing Cross-Training to L&D
- Nurses planning to take the Inpatient OB RNC Exam

This course has everything you need for updating your clinical knowledge base in OB. Focusing on Labor & Delivery, you will also get key clinical care issues from Antepartum to the Postpartum period.

If you are experienced, new to OB, or planning to take the RNC certification exam - this course is for you!

PROGRAM OBJECTIVES:

Following comprehensive lecture, discussion, A-V, presentation and case review, you will be able to:**

- Demonstrate knowledge of biological, physiological, psychological, and sociocultural factors that influence the pregnant family, developing fetus and impact care.
- Identify alterations in the biological, physiological, psychological, and sociocultural status of the mother, fetus and implications for the newborn.
- Identify patient's actual or potential problems/needs, utilizing information received from the patient, the family, appropriate records, and other health team members.
- Develop a comprehensive plan for individualized nursing care, including diagnostic, therapeutic, and patient education components.
- Evaluate interventions and modify the plan of care.
- Apply current standards of practice, research findings and ethical/legal principles in providing nursing care to the normal and high risk antepartal, intrapartal, and postpartal family.

****Taking the review course does not guarantee passing the exam.**

Would you like to bring this program (without exam) to your hospital? Call 800-732-2387 or email sherri@proedcenter.com
